

AS YOUR MINISTER SEES IT

"Keep Looking Up."

By W. A. MacARTHUR
(Pastor, First Methodist Church)
Dr. Charles M. Tibbets tells this
old boy, a child, that he built on
the outside of the church which stood
past home. With a boy's eyes he
watched the men as they prepared
the site, and with a boy's heart
he joined in the work. And when
he had learned the trade and
the skill, he climbed up on the stage
and, as it were, "sat on the roof."
I had to sit on the roof
of my mother's roof,
and I was to
be married to
the woman, and of
things. I was
not to climb

trowel. But when that was accomplished, true to the perversity of our natures, I looked down to see the stoning, and all the while as he labored, I was that boy who would frightened me to arrest as to make me liable to fall.

The distance was appalling, and I felt sick and dizzy. Overwhelmed, I turned around and went to the window of my friend saying—Look up, my poor down through the manhole lad! Keep looking up! Strength and above and swept the Rat into the control returned to my muscles and sewer. Chico pulled him out and

SAVED JUN FROM DROWNING.

As the Rat sat on the edge of the tower, Chico turned loose on him. "Now, that's the sort of thing that some of the philosophy of our government is a ladder which leads to the depths of the sewers to the heights from the depths to the heights from the sewers to the stars!" Boastful, optimistic, self-reliant, self-possessed, Chico! What a tonic he is to us!

The distance was appalling, and I felt sick and dizzy. Overwhelmed, I turned around and went to the window of my friend saying—Look up, my poor down through the manhole lad! Keep looking up! Strength and above and swept the Rat into the control returned to my muscles and sewer. Chico pulled him out and

SAVED JUN FROM DROWNING.

Boastful, optimistic, self-reliant, self-possessed, Chico! What a tonic he is to us!

TRUCKER FINED

BURLEY, Nov. 17—Albert Buckley,

Haines, Mont., was fined \$25 and \$3

for driving a truck with oil leaking

over the road, causing a flat tire.

The truck was carrying oil.

The truck

Another Cafe Gets Picketed In Strike Acts

(From Page One)
signed in July by 21 employers of the cafe, saying they had been denied the right to work under conditions and did not want union representation.

In view of this later vote of confidence, as well as by one of the employees of her cafe, Mrs. K. W. Hunt, there is no reason for a union to interfere in our small business operations.

We encourage labor unions in general for their efforts in behalf of industrial and mining workers, but asserted he felt the time had come to bring the organization into a smaller business, "where employees are happy with their present situation."

Mr. Hunt announced Saturday that no effort will be made to picket either cafe during its entire operating day, but that employees will be on duty only during the cafe's peak hours. There will be no picketing on Sundays, she added.

"We emphasize that the unionization and the workers refuse to meet with us, we have no choice but to picket," she said. "We do not want to force our customers' employees to vote in favor of union representation."

\$60,200,000

State Budget Being Asked

(From Page One)
Smiley said the proposals presented to the committee by the department and the legislature were for a state budget of \$60,200,000 for construction.

Smiley said he thought the budget would be a good one, but the problem is to get it through the legislature as has been widely anticipated.

He will report upon the budget within five days after the legislature meets the first week of January.

Earlier, State Highway Engineer B. Bryce Reed told the legislature that the construction of an interstate highway system in Idaho will bring problems as well as advantages.

He said the first one of

several controls.

Bennett said, "Some

people in farming areas aren't going to be happy at driving half a mile to get to a highway.

"And there is the problem of going around towns. In most cases, the roads will take the town, which will be a bad idea."

He said the 650 miles of interstate roads to be built in the next 15 to 18 years under the federal highway program will bring some gains, but operating costs about a mile a mile, reduce traffic accidents and tie Idaho closer to the rest of the country.

Other speakers were Dr. D. R. Chappell, president of University of Idaho; State Rep. Robert Dutton; State Sen. W. C. Johnson; the Interstate Tax Committee; and State Rep. W. D. Morris, R. Ada.

State Rep. W. H. C. Johnson, a member of the group that recommended the highway budget for the 1957-58 biennium will total 70 million dollars, compared to 48 million for the current biennium.

Holstein Sale Is Held at Gooding

GOODING, Nov. 17.—The third annual Holstein dairy stock sale was held Thursday, Nov. 15, 1956, at the fairgrounds. The sale raised \$1,000 for the Holstein Foundation.

Life in MAGIC VALLEY

There are 14 kinds of places to visit in Magic Valley but to the small boy in **MAGIC VALLEY** there is one place which has plenty of appeal, while it may not surpass all others. And it's only a mile from the city.

For generations, Shoshone children have been making the trip and have **MAGIC VALLEY** made more thrilling by the vivid imagination of youth. Occasionally, evidence of the past, such as arrowheads, have been found to lend a note of reverence to their tales—even without imagination. It would seem Indians had fought here. Today it's known as "Three Peaks," and three peaks it is, three peaks of lava jutting from the desert one mile west of the city.

A lot of folks may try to take root on the peaks, but most of the time they're bare.

Sand, sagebrush and lava are the only natural cover. And the lone, horned toads and insects to give the boys a sense of being away from it all while only a mile from home.

And the boys add the mysteries of summer moonlight, the chirp of crickets, and the buzz of a mosquito to the landscape.

Who but a boy knows what questions are asked and answered in such a setting? The most popular question is, "Where does he come from and where was he born?"

Real, vivid adventures for a boy and only a boy can home.

Olaf Moller, Rupert artist who is holding a one-man art show at his home today, has painted a picture of the boy's adventure.

He makes picture frames for other artists. The frames he makes are works of art themselves and not simply four pieces of wood put together to hold a picture.

Many artists pay high prices for authentic animal pictures, but Moller's prices are the supply never reaches the demand and antiques being necessarily limited, artists have to look elsewhere for subjects.

Moller's frames are hand-crafted and, in some instances, are copies of antique frames originally made by art galleries in the country.

He uses either balsa or white pine wood, chipping and carving the blocks down to the size and design of the picture.

Most of his paintings are framed for his own frames. The surplus frames he sells to his colleagues.

Born in Denmark, Moller came to the United States in 1919 and to the State. He was brought to this country by his parents when only 4 months old. He was educated in Salt Lake City, Utah, and in 1937 became the personal assistant of fine arts in Philadelphia. In 1941, he studied there for eight years as well as under a number of well-known artists.

He has been awarded a number of prizes for his paintings, including a gold medal at the 1947 National Exhibit which he held no longer.

Just about every year Moller returns east for a couple of months to paint landscapes, principally in New

England. He also spends considerable time in the Jackson Hole country of Wyoming and among the associations of which he is a member is the Twin Aridite association.

He is 41—lucky he can do between 30 and 40 paintings a year. There have been years, though, when he has been able to complete only 10 or 12.

"Sometimes weather conditions won't cooperate and sometimes pictures just won't go down on canvas the way they should," he said.

Christmas Plans Made by Church Club in Wendell

WENDELL, Nov. 17—Dozens of an attendance contest for the Mariners club served a chuck-wagon dinner for 100 members of the First Baptist church preceding their regular meeting. More than 50 attended.

Earl Woodruff, skipper, was in charge of the meal.

Plans were made to sponsor the Christmas party for children of the church—Mr. and Mrs. Richard Willard, church trustees, were in charge of party arrangements.

Money and clothes are being collected to be sent for children of the church who are sick or adopted Japanese orphans. Money may be left with Mr. and Mrs. L. R. Berry. The church sends \$10 each month to assist in care of the children.

Atio Wulfrich, treasurer, and Gene Johnson, log keeper, gave reports. The Rev. C. E. Collier gave the sermon. Singing lessons were conducted by Douglas Schrank.

The Christmas party Dec. 12 will be held at the home of Dr. and Mrs. M. E. Schatz.

Observer Group's Meeting Planned

HANSEN, Nov. 17—Executive board members of the ground observer corps met Friday evening in Hansen to plan the annual meeting of the regular meeting on Nov. 23.

Reed Johnson, supervisor, gave a brief talk on his trip to Eglin air force base in Florida as a student in the air force. He showed pictures which he had taken.

Day captains were informed they would be responsible for the conditions twice on their day of service.

A discussion was held on what measures can be taken to stop vandalism.

At the next regular meeting of the group's several wings, several group awards and one 500-hour award will be presented.

Shoshone Boys Have Own Tour

Two Shoshone boys, members of the present generation, follow the footsteps of previous generations of boys to a land of enchantment and imagination close at home. "Three Peaks" west of Shoshone, have been "a mecca" for generations after generation. (Staff photo-engraving)

Blast Planned To Get Rocks For Road Fill

SALT LAKE CITY, Nov. 17—One of the biggest non-explosive blasts ever set off in the United States will be detonated in northern Utah Nov. 20.

The Southern Pacific railroad said

that an estimated 400,000 pounds of explosive in a 300 foot high cliff to provide additional rock for its 48 million dollar causeway across Great

The blast is expected to jingle seismographs in Utah and Nevada but the surface shock will not be noticed more than a mile or two away.

Chesler, a spokesman for the Southern Pacific said only two larger non-detonate blasts have been set off in the country. Both were in 1948 at the 10,000 foot level of the South Holston dam at Bristol, Tenn.

The largest previous explosion in Utah was 200,000 pounds of explosive at a test at Duray proving ground in 1948. It detonated 500,000 pounds of surplus mines at Arco, Ids.

Ninety percent of Bermuda's food supply is imported. Most of the British colony's cultivated land—about 700 acres—is used for Easter

lilies and bananas.

Petition Filed to Terminate Estate

MARRIAGE LICENSES ISSUED BURLEY, Nov. 17—Marriage licenses were issued here to Kenneth Carl Easton, Paul, and Shirley Rae Scott, Burley, and Donald William Miller and Carole Juanita Judd, both Decio.

A petition to terminate the life estate of Hugh E. Reed in his property located in Twin Falls county was filed in probate court Saturday.

The petition by the Duffy Reed Construction Co. Inc., acting through its president, Duffy E. Reed, states Hugh E. Reed was owner of the property prior to 1910 at which time he conveyed it to Paul W. and Dorothy S. Reed, retaining a life estate for himself. Hugh E. Reed died Oct. 20 in Burley.

On March 9, 1955, the petition says Paul W. and Dorothy S. Reed deeded the land to the construction company.

C. O. Schenberger, Twin Falls, attorney for the company, said:

Judge Everett Sweety set the hearing for Nov. 29.

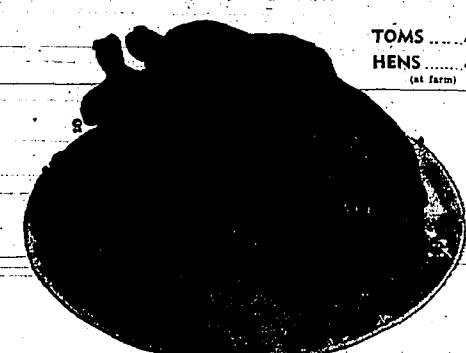

Events Related

HANSEN, Nov. 17—Mr. and Mrs. W. O. Allen, Mr. and Mrs. A. F. Davis and Mr. and Mrs. E. Bedow are attending Decio Day at the University of Idaho, Moscow.

Mr. Earl Tridie and Mrs. Sheldon Tyler are in Plainview, Tex., recalled them because of the serious illness of their brother, Ellis Flannery.

Parley Slated On Shoshone Sewage Plant

SHOSHONE, Nov. 17.—Plans for a sewage plant will be presented to a meeting of civic organizations at 8 p.m. Monday at the City Hall.

A representative from the public health department, an engineer who has never seen the plant, and a man familiar with the project will be present to answer the questions. Plans and specifications were drawn up several months ago by Engineers Carl Smith, and officials said federal money already has been used to prepare the plans. It is expected the sewage plant will be built.

For a sewage plant based on the fact that federal money will be available, the cost is not given. New homes having drilled sewage holes, said, and because water costs are high, the cost of the sewage holes in southern Idaho is increasing steadily.

Present plans are to finance the project by revenue bonds to be paid by the sewer charges and not from the taxes.

"A general meeting for all taxpayers will be called before any action is taken," said a bond election official said.

Knife, Fork Club
Sees Card Expert

BURLEY, Nov. 17.—Members of the Knife and Fork Club had their 10th annual "gambler" with a dinner meeting Thursday when they saw Michael MacDougall, noted card expert, play his all at the top card table.

MacDougall, a "card detective," has a reputation as "the best in the world." He has worked as a magician, writer and lecturer, and worked with the navy, navy and other organizations in teaching card tricks.

The next meeting of the group will be Dec. 7. Kurt Singer will speak on "Tricks and Spies."

Deco Visits

BURLEY, Nov. 17.—Mr. and Mrs. Clark Darrington, Mr. and Mrs. Leroy Banner, Mrs. William Darmon, Mr. and Mrs. John C. Gandy, Mr. and Mrs. A. Gillette, Mrs. Nella Kidd and Mrs. Fanny Tanner spent Thursday at the Idaho Falls temple.

They were visiting him.

Thursday from attending the National Reclamation Association convention in Salt Lake City, Mrs. Ruthie and Mr. and Mrs. John Johansen in Long Beach, Calif., met their husband in Salt Lake City and returned with him.

Visits Reported

DITTRICH, Nov. 17.—Mr. and Mrs. Charles Page—have returned from visiting their son, Dean Page, and family in Fairfield, Calif., and their daughter, Grace Steele in Santa Rosa, Calif.

Mr. and Mrs. Edward Root, Idaho Falls, are visiting his father, Vern Phillips.

Phillis Pitman and Beverly Johnson have been visiting Emma Murphy at Ricks College, Rexburg.

Russians Test Atom Weapon From Heights

MOSCOW, Nov. 17 (UPI)—A Russian atomic weapon was exploded "at a great height" in a test today, the official Tass agency announced.

The announcement of the nuclear explosion was published in the morning after the foreign ministry had announced Soviet proposals for a permanent which repeated Russian demand for a ban on nuclear tests.

"The test of a nuclear weapon was carried out in the Soviet Union today, Nov. 17, 1956," the brief Tass statement said.

The explosion was carried out at greatest height. The test was extremely successful.

There were no immediate indications of the exact nature of the weapon.

Union Cry Is Raised After Court Ruling

DENVER, Nov. 17 (UPI)—A court action-busting was the legal today from the International Union of Mine, Mill and Smelter Workers to conspiracy—indictments of 14 of its officials and staff members.

The suit, filed by a federal grand jury of conspiring to defraud the government by filing false data denying the union's party status members, was independent union headquarters here.

House Sel.

Bond for each of the defendants at \$1,000 and warrants of arrest were issued. Among the 14 is Maurice Travis, 45, former president and chairman of the mine workers' union, who resides here. The defendants then will appear before U.S. Commissioner Howard E. Erickson, 50, of the U.S. Court of Appeals here, on Dec. 1, when he is to be committed to jail, Kelley said.

Statement Given.

A statement from the union's executive board, describing the trial as a "battle on old and respected labor union and its members." The board said all 14 are members of vindictive Mine Mill and Smelter Workers. This month's action-busting will be thrown out of court.

"Trusted by numerous officials in the attempt to hamstring this union, Atty. Gen. Bonner has turned to the conspiracy charge which apparently has been the only one used in this country for 150 years," the statement said.

Charge Made.

Officials of the union were accused of having conspired with Communist officials since June 15, 1948, indictment charge they had to do with the formation of the national labor relations board for union benefit "without any good reason qualifying the union for this service."

The CIO expelled Mine-Mill in 1948, accusing its leaders of being Communists.

The union has denied the charge.

Woman Is Sought By Burley Police

BURLEY, Nov. 17.—A woman who identified herself as Mrs. Duane Dickey, 21, of 1100 N. 10th Street, 11th and 10th avenues, called police to claim were six worthless.

Police checked the address she had given and had found it to be fictitious. They said the woman was five feet, four inches tall, had a fair complexion, brown hair and was wearing a dirty tan coat, a silk scarf on her head, silk stockings and no stockings. They said she has a wedding band on her finger.

Police report she cashed a check for \$25 at the Buhl drug store, bought a sweater for \$25, a \$20 check at the Miller drug store and made \$10 at the Buhl drug store. She then cashed a check for \$25, cashed another check for \$25, cashed a check for \$3 at the Buhl drug store, and cashed a check for \$45, a worth of jewelry, and cashed a check for \$3 at the J. C. Penney and Alexander stores.

Trio of Students Injured in Crash

MOSCOW, Nov. 17 (UPI)—Three University of Idaho students were injured Friday night when the car in which they were riding went into a steep embankment after hitting in a steep embankment about three miles east of here.

Taken to the University Infirmary here, were William A. Buhl, 20, Idaho Falls, who received a broken back; Harry Musick, 20, Porterville, Calif., broken vertebrae fractures, and Shirley Lovell, 18, Moscow, suffering a compound fracture of the leg.

The driver of the car was identified as Bert Averill, 21, Moscow, who was uninjured.

5 Area Students Get Scholarships

UNIVERSITY OF IDAHO, Moscow, Nov. 17.—Five Magic Valley students have been awarded scholarships by the University of Idaho board of regents.

They are Louise Vandenberg, 18, who received a scholarship to the University of Idaho, and Frank Eicheler, 20, Idaho Falls, Twin Falls, a \$400 scholarship; Carol Ann Amerson, 18, who received a \$300 scholarship from General Mills; and Thomas Meier, 18, who received a scholarship from the Hecla Mining Company ranging from \$100 to \$200.

Three Ballots Pick Judge in Surprise Vote

CREEDEN, Colo., Nov. 17 (UPI)—Mrs. Martha Nelson, a farm widow with three children, will become Mineral County's new judge, but not because three citizens wrote her name on the ballot.

The three citizens, comprised both Mrs. Nelson and County Judge W. Wallace Wright, surprised

Wright through he had two more years to serve. He was appointed to fill a vacancy and soon after, in the 1954 voting, was elected to complete the term.

Democratic and Republican party officials, laboring under the impression that the election was to be held in term, failed to nominate candidates this month. They simply inked out the words "county judge" on the ballot.

Also Surprised

When the county clerk issued Mrs. Nelson her certificate of election this week she admits, "I was in total surprise when I got it."

The three votes she got were cast in the election by citizens Mrs. Nelson voted in precinct one. The job pays \$50 a month.

Farmers Keep Their Control Of Legislature

BONNE, Nov. 17 (UPI)—Farmers and ranchers will continue to dominate the legislative lineup when the 1957 legislature convenes here in January, according to a service director of the reporting service allowed today.

The Idaho capital, a service of the Voter Publishing company, showed in its 21st edition of the week and 23 of 68 house chairs would be held by farmers and ranchers.

"Business" will be represented by air senators and 17 representatives. The lumber industry will have two representatives, while services—insurance, real estate, administrative, education and publishers will have one each. The seats and four in the Senate and four in the House.

The reporting service said there were 100 senators and 170 representatives in the house, while services—insurance, real estate, administrative, education and publishers will have one each. The seats and four in the Senate and four in the House.

Others Classified

"Miscellaneous" classifications, such as dentists, pharmacists, housewives, will have two senators and three representatives.

The report also showed that 31 of 22 senators and 100 of 140 house members in the Senate have had previous legislative experience. In the house 18 of 21 Democrats and 22 of 32 Republicans have been in the legislature before.

The "experienced" lawmakers in

clude both 1935 incumbents and first-termers. Some have held office for one or more terms, the report indicated.

Woman to Take Long Taxi Trip

EAST ORANGE, N.J., Nov. 17 (UPI)—How would you like to get into a taxicab and blabber on "One Way" for 10 hours?

That, in effect, is just what an elderly woman did here Friday. She's going to pay a flat rate of \$60 a day for a taxi to take her from New York to Florida, Denver and other points.

The woman, Mrs. Anna Schubert, 75, was picked up by the taxi company. She had ordered "a careful driver who is reliable to a passenger" and one who "won't have to leave a wife and children."

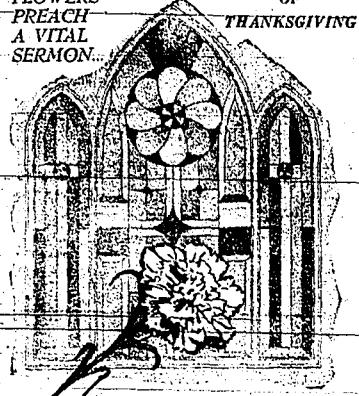

Charles Kamp, East Orange, got the assignment. His wife is dead and his children are married.

Death Probed

POCATELLO, Nov. 17 (UPI)—Coroner Alf E. Johnson was investigating today the death of a woman whose husband found her body submerged in the bathtub when he returned from a vacation.

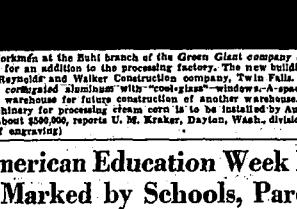

Manning said an overdose of drugs and drowning both contributed to the death of Mrs. Edna Catloway. The 42-year-old woman had moved here last June from Texas.

Way Cleared for Buhl Plant Expansion

American Education Week Is Marked by Schools, Parents

American Education week was observed by Twin Falls schools Monday through Friday with special days designated at some for visitors while others parents and visitors came to school on any of the five school days.

Richard Morton, principal of Lincoln school, was chairman of the American Education week in Twin Falls. Friday, members of the Future Teachers of America, the National Education Association, visited all the elementary schools and presented programs to teachers.

The week's activities at Morningwood school were discontinued because

of the weather. Mrs. Vera C. O'Leary, principal, estimated 200 parents and visitors.

The "experienced" lawmakers in

clude both 1935 incumbents and first-termers. Some have held office for one or more terms, the report indicated.

Friday, Nov. 17 (UPI)—

Workmen at the Buhl branch of the Green Giant company are wrecking a paneled cellar at left to make

way for an addition to the processing factory. The new building, which will be 80 by 250 feet, will be built

by Reynolds and Walker Construction company, Twin Falls. The addition will be built of structural steel

and concrete and will be used for future construction of another warehouse. The addition is to be completed by May 1.

Machinery for processing cream corn is to be installed by Aug. 1. Cost of the building and machinery will

be about \$350,000, reports U. M. Kraker, Dayton, Wash., divisional engineer for Green Giant. (Ced photo)

**Larsen Voted
New Term at
Grazing Meet**

BURLEY, Nov. 17.—Russell C. Larsen, Kimberly, was selected cattle representative and Ray Lincoln, Twin Falls, was reelected sheep representative, both of them by the district advisory board of the Idaho Grazing District 2.

The election was held Thursday night at the office of the bureau of land management here.

Advisory board officers for the current year are Wesley Ward, Almo, chairman and state advisor; and Marvin F. Johnson, Twin Falls, representative; Vern E. Egan, American Falls, alternate sheep representative; and Milton T. Johnson, Madras, alternate cattle representative.

Other members of the board are: Mr. T. C. Tamm, sheep representative; Arthur F. Phillips, cattle representative; and Garnett E. Johnson, wildlife representative.

Ridge Range Manager William L. Maliboy conducted the meeting.

Idaho Wool Growers Association, reported on the annual association meet in Pocatello.

Waldron, new district range manager for district No. 2, was inducted. Joe Fallini, range and forestry officer from the state of land management and office director, discussed general programs and policies.

**4-H Leaders Are
Honored at Meet**

BURLEY, Nov. 17.—Cassia county 4-H members at the 4-H leadership recognition banquet at the Shoshone Inn.

Four members were honored: for their work with the 4-H club. They are: Mr. and Mrs. Axel Zollinger, Sublette; Mrs. Olen Clark, Abdon, and Lloyd Button, and Anna Clark, all of whom received the year-long 4-H club.

Zollinger is the leader of the Gem state club; Mrs. Clark, the club's president; Mrs. Clark heads the Denali-Kates, and Sutton and Baker are leaders, respectively, of the Big D and the Mountain view clubs.

United Nations Theme Featured At Church Meet

HAGERMAN, Nov. 17.—"The United Nations—a good idea" was the theme of the annual meeting of persons for the national meeting of the Christian Women's Society of Christian Service at the home of Mrs. John Hayden. Mrs. John Townsend was in charge.

The program was directed by Mrs. John Townsend, who also gave the call to prayer and scripture reading. The choir, "Guitar Buddies," sang the part of the United Nations—Mrs. Dalmatian, "How the U. N. has helped us"; Mrs. Donald, "How the U. N. has helped us"; Mrs. Mabel, "What we do for the U. N. and Miss. Mabel, "U. N. trustee table."

John Townsend reported on the needs of the poor, Mrs. Townsend on the needs of the handicapped, Mrs. Townsend on the U. N. for the deaf, and Mrs. Townsend on the U. N. for the blind.

A communication was received from the United Nations, which was read by Mrs. Townsend.

The next two weeks' schedule will include the mobile clinics in the schools; work in the schools; and the Harold and Salt Lake.

OES Chapter Has Church-Program

A program was presented by Mrs. Lena Potter and Mrs. Atella Whitehead on church services that have visited the church. The program was for Twin Falls Chapter No. 10, Order of Eastern Star, Tuesday at the Masonic temple.

A special welcome was given to Mrs. Jack Johnson, past grand matron of the Grand chapter of Idaho, and Jack Johnson, Hiley, and Mr. Carl Anderson, Magic chapter.

Refreshments were served by Mrs. Roy Painter, Mrs. A. F. Olson, Mrs. Eugene Walker, Mrs. Carl Sherwood, Mrs. T. R. Knights and Mrs. Wayne Wyatt.

John Townsend reported on the needs of the poor, Mrs. Townsend on the needs of the handicapped, Mrs. Townsend on the needs of the blind, and Mrs. Townsend on the needs of the deaf.

Letters Studied By Church Guild At Local Parley

Paula's letters to local churches was the program topic of the Western Star guild of the Methodist church at the Masonic temple.

Mrs. Veron E. Smith, Mrs. John Lee and Mrs. Judy Sauer were in charge of the discussion on Paula's idea of the church.

New members attending for the first time were Mrs. Ruth and Louis Buhler, Mrs. Wayne Mayers, Buhler, and Mrs. Wayne Wardwell, Cincinnati.

Co-chairmen were Mrs. David and Mrs. K. P. Thomas and Mrs. Rubin Printz.

Need for Leaders For Youth Group Told By Speaker

By Bertha Massell

Massell gave the program, "For all children," for the Woman's Society of Christian Service Wednesday at the Methodist.

She stressed the great need for more teachers and women to lead children's organizations. She also spoke on the education and Christian training of children.

Miss McLean gave a demonstration on the purpose of their organization.

She was introduced and welcomed by Mrs. Florence Bener, local president of the W. S. C. S. Mrs. McLean gave a demonstration on minkin English tulip and peanut brittle candies.

Ideas for Santa Given to Women

"Ideas for Santa" was the program theme for the Newcomer club afternoon get-together Wednesday at the home of Mrs. Ray Ellsbury. This was the second meeting of the club.

Ellsbury was the chairman of the drive.

New members attending for the first time were Mrs. Ruth and Louis Buhler, Mrs. Wayne Mayers, Buhler, and Mrs. Wayne Wardwell, Cincinnati.

Co-chairmen were Mrs. David and Mrs. K. P. Thomas and Mrs. Rubin Printz.

IDAHO STATE HANDS AIR FORCE FALCONS FIRST DEFEAT, 13-7

Bengals Outplay Opponents, Earn Hard-Fought Win

PIUEO, Colo., Nov. 17 (UPI)—Idaho State's Bengals emerged with first half touchdowns, then stayed off the Air Force Academy Saturday to hand the Falcons their first football defeat of the season, 13-7. The Cadets, led last year by Whittier, Calif., had rolled over six other opponents in the Mountain Conference and Rocky Mountain Athletic Conference this season.

But the Bengals who started second in their league this campaign, chalked off every Air Force team in their first half. They netted only two first downs and 27 net yards in total offense during that section.

Quarterback Larry Thompson, the Academy's nominee for Little All-American honors, bucked over from two yards out with 16 seconds left in the first half. The 180-pound junior had a year's run, according to figures compiled by Charles E. Malt, Jerome, fish and game department checker.

Today is Last Day of Season For Pheasants

McGraw Valley sportsmen go out in search of pheasants today for the last time this season. They have encamped up until this point, open season, for better success than a year's hunt, according to figures compiled by Charles E. Malt, Jerome, fish and game department checker.

Estimated 1,710 hunters this season found that 1,588 birds were taken, a record number of hunters drawn.

With less than 30 seconds left in the first half, the Bengals' record was an increase in birds bagged of about one bird per hunter.

The ratio of approximately seven pheasants per bird shot during the better part of average netting.

Bagging pressure fell off sharply after the past 10 days, but the record almost certainly could have been better except for hunting conditions.

At that, the record in the field was 1,588 birds per bird shot in last year's hunt.

Again requested hunters who were headed into the woods this fall to take care of the birds in their possession or at their disposal. Sporting Goods store, Super's gun shop or at Bob Galt's Gun & Photo sporting goods.

Best hunting was found in Lincoln and Lincoln counties and the Shoshone, Richfield and Die areas.

Hunting pressure now will turn to waterfowl, on which the season is open November 20.

Each of the nine birds must include one or more pintails or wood ducks, and six or fewer of other species.

Best hunting was found in North and South Lincoln counties and the Shoshone, Richfield and Die areas.

Hunting pressure now will turn to waterfowl, on which the season is open November 20.

Each of the nine birds must include one or more pintails or wood ducks, and six or fewer of other species.

Navy Wins 34-7 Over Virginia

RAHWAY, N.J., Nov. 17 (UPI)—Navy's 10th straight football victory and 11th consecutive football Saturday substitute halfback Chet Kmetz slithered for three touchowns in the second half to lead the Navy to a victory over Virginia during a steady drizzle at Memorial Stadium.

The game before about 12,000 was abundant in fumbles and pass interceptions.

Quits Baseball

HOLLYWOOD, Nov. 17 (UPI)—Hollywood's Pacific Coast League's Hollywood Stars Saturday tendered his resignation to club president Robert H. Cobb, saying that recent trade rumors contained something he could not tolerate.

Cobb declared, "Clay did an outstanding job this year, but we are keeping his resignation."

The club said the wire containing his resignation was sent from Hollywood, Mass., home.

Althea Gibson Tops Shirley Fry

SYDNEY, Australia, Nov. 17 (UPI)—Althea Gibson turned the tables on Shirley Fry in the U.S. National tournament final in September, the New York miss trounced the 1949 Australian champion, 6-2, 6-2, to win the New South Wales Women's singles tennis title.

Fans were surprised. They did not expect the 1949 Australian champion to make so many errors.

Brooklyn Dodger bullpen coach Jim Brown had a level to signal Dodger base runners that a batted ball will hit the right field wall. The bullpen is close to the Ebbets field wall.

Pro League Leaders All Favored in Sunday Games

By The Associated Press

The Browns, New York Giants and the Philadelphia Phillies, top contenders for the National League title, all but at least one touchdown favorite to win the Sunday games.

Of the four, the two Chicago teams figure to have the easiest assignments.

The Cardinals, needing New York's help to win the pennant, first place with the Giants in the Eastern Division, take on the Pittsburgh Pirates, who currently are sharing the cellar berth with Cleveland.

The Bears, tied with Detroit for first place in the Western Conference, each with a 6-1 mark, take

on the five-times beaten Los Angeles Rams in Chicago. They are the only team in the league, the biggest favorite of the day.

The Lions, who dropped their first game of the season last week, will face the Bears in a battle of first-place teams.

The game will be played in Detroit.

The toughest task is faced by the Rams, who must travel to Washington for a tussle with the suddenly revived Redskins.

Although the Rams are a 15-point favorite to defeat Cleveland in Philadelphia, and the Packers are a 10-point choice to whip San Francisco at Green Bay.

Post-Season Statistical Roundup Gives Bruins Edge in First Downs

Twin Falls high school gridironers, the Bruins, were the best in the post-season, coming out of 10

the past season with a 10-2 record of comfort today in noting that they held an edge over their opponents in first downs.

The Bruins, 8-2, 88 first downs, while holding their opponents to 81.

There were several other bright spots in the list of statistics, notably by coach Bob Hillard. For example, halfback Jim Duncan and end Jim Hirsch were only 11 yards apart in average of yards carried in 58 tries to lead Bruin.

Duncan also caught nine passes, 102 yards to lead in that department.

Fullback Mike Steva was second in the Bruins with 82 yards average.

With a total of 1400 yards rushing and 388 yards passing, the Bruins were well-armed to move-the-ball-but-were-definitely weak in scoring.

Eighty-four points were scored by the Bruins, 102 yards to 121 by the Indians.

Duncan was second in passes in pins receiving with seven catches for 100 yards, while Hirsch had three passes for 34 yards.

The Indians, with Kent Ancherauer, with four catches was 26 and Don Farnham, with four catches for 34 yards.

The Bruins fumbled 32 times during the season, recovering 20 of them back 10 yards.

The Indians, 10 fumbles, picking up 12 yards by opponents.

With a total of 1400 yards rushing and 388 yards passing, the Indians were well-armed to move-the-ball-but-were-definitely weak in scoring.

The Indians were scored by coach Bob Hillard.
